# DESIGN-A-RIVET

Can't find what you're looking for? We can supply custom cold-headed rivets and parts from .028" to 1.5" diameter! Simply FAX us your drawing or fill in dimensions on this sheet and FAX it to us. Cold-heading is an economical way to produce fasteners and many parts. Often screw machined parts can be cold-headed at reduced cost and increased strength! We look forward to your inquiry and quoting your requirements.

**PLEASE CIRCLE THE APPROPRIATE CHOICES BELOW:**

HEAD STYLE		BODY STYLE		MATERIAL		FINISH		
OVAL	TRUSS	SOLID	TAPPED	STEEL	MONEL	ZINC	PLAIN	CAD
ROUND	FLAT/NAIL	TUBULAR	THREADED	BRASS	STAINLESS	BRASS	TIN	COPPER
